

AVID Pro Tools 101 Fundamentals I

DURATION: 2 DAYS

PRICE: £300

**COURSE DATES: 5TH & 6TH JUNE | 10TH & 11TH JUNE |
24TH & 25TH JUNE**

WHO IS THIS FOR?

The Pro Tools 101 – Fundamentals I course is designed for both new and experienced Pro Tools Specialists seeking to build a solid foundational understanding of the software.

WHAT DOES THE COURSE COVER?

This Pro Tools 101 (Fundamentals I) course introduces essential techniques for building sessions, including multi-track recordings of live audio, MIDI sequences and virtual instruments. Using provided course materials, you will learn to navigate sessions and arrange media on tracks, using basic processing and mixing techniques to finalise a production. This course provides the foundation training required to prepare for the Avid Certified Specialist: Pro Tools certification exam.

WHAT EXPERIENCE IS NEEDED?

No experience with Avid Pro Tools software is required, however an understanding of basic audio, MIDI and multi-track mixing techniques will be beneficial, as will an understanding digital audio equipment such as MIDI controllers and audio interfaces.

WHAT DOES THE COURSE COVER?

- Create a Pro Tools session document or cloud-enabled project with appropriate parameter settings
- Accomplish common audio production tasks
- Employ navigation and editing skills in a multi-track Pro Tools document
- Incorporate proper recording and mixing techniques for audio and MIDI files in the Pro Tools environment
- Analyse and interpret session file structures.
- Recognise and navigate the user interface and tool set

WHO ARE THE TRAINERS?

Our Pro Tools courses are delivered by our professional audio team who are all AVID Certified Instructors and work in studios and production environments both within and outside the University of Salford School of Arts, Media and Creative Technology.
